

1. LIKE THE MORNING DEW

Our love feels like the morning clouds
Like the morning dew
That goes away.
Our love feels like the morning clouds
Like the morning dew
That goes away early.

Nothing lasts but memories
The best ones seem to go by slow.
Tried to write the perfect song for you
Then I realized it didn't belong to me
It didn't belong to me

Heaven knows how long to go
We never have a thing to show.
Every day seemed like the same
Then I realized I didn't belong to you
I didn't belong to you

Like the morning dew
Our love feels like the morning clouds.

2. MAKE ME LOVELY

I can't make you love me
You can't make me lovely
Please don't try to
Hold me down
It's over now
I will go
Where you can't find me.

I don't think I can trust you
I don't know what I'm supposed to do
We got lost then we went too far
Give back my soul and take my heart

Don't want the world and lose my soul

I can't make you love me
Make you love me
Make me lovely

You can't make me lovely
Make you love me
Make me lovely

I don't need love to rescue me
I'll be all that I choose to be.
When the sky fills with falling stars
Give back my soul and take my heart.

Don't want the world and lose my soul.

3. GREEN GARDEN

Take me outside, sit in the green garden
Nobody out there, but it's ok now
Bathe in the sunlight, don't mind if rain falls
Take me outside, sit in the green garden

And I'll fly, on the wings of a butterfly
High as a tree top, and down again
Putting my bag down, taking my shoes off
Walk on the carpet, of green velvet

Dance in my garden like we used to
Dance in my garden like we used to

I'll go wherever you go, wherever you take me I'll go
I'll go wherever you go, wherever you take me I'll go

Take me outside, sit in the green garden
Take me outside, sit in the green garden

Take me outside
Take me outside
Take me outside
Sit in the green garden

I'll go wherever you go, wherever you take me I'll go.

4. CAN'T LIVE WITH THE WORLD

You can't live with the world on your shoulders, your shoulders
Take my hand and you'll see love will find us, will find us
You've been lost in a dark place a long time, a long time

Now I've found you, I'll stay here and hold you
I'll stay here, I'll hold you till morning
I'll hold you tight

You can't live with the world on your shoulders, your shoulders
Come to me say goodbye to your struggles

I'll stay here, I'll hold you till morning
I'll hold you
I'll stay here, I'll hold you till morning
I'll hold you tight.

Remember how far you've come
From the start till the end, depend on me

You can't live with the world on your shoulders

Stay till the morning come
Hold you till the morning light.

5. IS THERE ANYBODY OUT THERE ?

It's too late for me now
Can't be undone in me now
Gone down deep within me now
Can't take it out of me now.

I was young and free then
Like a child I loved to love then
Now there's nothing left in me but fear
I can see the end is drawing near.

This is the end before it's even started
I can't survive this way I'm broken hearted

I believed in you then
You believed in me then
You took everything I had and more

Each day I live to give you my all

Is there anybody out there ?
Who knows ?

Is there anybody out there ?
I won't make it out here alone.

Keep on changing, to forever
Take a new day, let it start

Is there anybody out there ?
Who knows ?

Keep on changing, to forever

Is there anybody out there ?
I won't make it out here alone.

6. FATHER FATHER

Father Father let me love you
Saw you wandering in my dream last night singing
Wonder wonder what you might do
You can't simply hide our dream in the blue

Don't try to fight don't let me go
You've gone too far from what I know
I lost my heart in the dark with you
Father Father why you let me go ?
Father please don't let me go

Brother Brother let me love you
Whisper all your deepest fears you can trust me
And when it's over we can begin
Finally to make amends try to save us.

Let me love you, let me love you

Don't try to fight don't let me go
You've gone too far from what I know
I lost my heart in the dark with you
Father Father why you let me go ?
Father please

Father please don't let me go
Father Father why you let me go ?
Father please

Father please don't let me go
Father Father why you let me go ?
Father

7. THAT'S ALRIGHT

I will never be what you want and that's alright
Cause my skin ain't light
And my body ain't tight
And that's alright
But if I might, I'ma stand and fight.

I will never be what you want and that's alright
I'll play my own damn tune
Shine like the moon
And very soon, I'll soon fly over you
And whatcha gonna do, when I fly over you ?

Tell me who made you the centre of the universe ?
Who made you the centre of the universe ?

And every morning when I wake up I pray for you
Then I pray for me
That soon you'll see how love can be
Our love will set you free
What's it gonna be ?
I see the beauty in your eyes.

Tell me who made you the centre of the universe ?
Who made you judge and jury over me ?
Who made you the centre of the universe ?
Now leave me be
Who made you the centre of the universe ?
Don't need no rules in my world
Who made you the centre of the universe ?

I will never be what you want and that's alright
Cause my skin ain't light
And my body ain't tight

I will never be what you want and that's alright
Cause my skin ain't light
And that's alright.

8. SHE

She walked towards you with her head down low
She wondered if there's a way out of the blue
Who's gonna take her home this time
She knew that this time wouldn't be the last time

There she waits looking for a savior
Someone to save her from her dying self
Always taking ten steps back and one step forward
She's tired but she don't stop

No, she don't stop
She don't stop
She don't stop

Every day she stood hoping for a new light
She closed her eyes then she heard a small voice say
You don't stop no you belong to me
She cried
Maybe it's too late

9. I DON'T KNOW WHAT THE WEATHER WILL BE

Tell me another story
With a happy ending
Cause my feet so weary
And my heart need mending
Is it true soon all this could be over ?
I'm not ready for this to be over

I don't know what the weather will be
Whether we'll see a tomorrow
But if today is all I have to live
I'd give it to you
Do what you want to

Tell me another story

With a brand new meaning
Cause my heart so weary
And my head need healing
Is it true soon all this could be over ?
I'm not ready for this to be over

10. SING TO THE MOON

Hey there you shattered in a thousand pieces
Weeping in the darkest night
Hey there you tryna stand up your own two feet and
Stumbling through the sky

When the lights go out and you're on your own
How you gonna make it through till the morning sun ?

Sing to the moon and the stars will shine
Over you lead you to the other side
Sing to the moon and the stars will shine
Over you Heaven's gonna turn the tide

Hey there you looking for a brighter season
Need to lay your burden down
Hey there you drowning in a helpless feeling
Buried under deeper ground

When the lights go out it's a waiting game
Never gonna see a day when your world will change

Sing to the moon and the stars will shine
Over you lead you to the other side
Sing to the moon and the stars will shine
Over you Heaven's gonna turn the tide

11. FLYING WITHOUT YOU

He was a boy in love just not with me
I did not see how hard it would be
To love alone without another
Crushed my heart, I fell into pieces

I was a girl in love, gave my heart
Lost my soul and even though

I was not enough for him back then
I wonder how it would have been

I'm flying without you
I'm fine now without you
I found something better
I love more than ever

You were my fantasy
You gave me something no one else could ever give
Seemed like a dream back then
Another story we were young and innocent

We were a perfect picture
Make believe I could not see even when
Time and time again you left me there
Another heavy memory

I'm flying without you
I'm fine now without you
I found something better
I love more than ever

I'm flying without you

12. DIAMONDS

Sometimes the grass seems greener on the other side
And maybe the sky's clearer in another place
But you got diamonds under your feet
But you got diamonds in your heart

Waiting for a day of change to come
And you're beautiful, dancing in a gloomy storm
But you got diamonds under your feet
But you got diamonds in your heart

13. UNBELIEVABLE DREAM

Together let's take the long road
Be part of a story to be told
Together let's take a long road
Just sit and wonder

Unbelievable dream
Don't wrap it up and throw it away
Unbelievable dream
Out of the blue, can it be true ?

Out of reach it might seem
Upon a cloud
A colour of doubt
Unbelievable dream
Don't throw it away

Sunshine ride on the mountain
Impossible beauty to be found
We fly higher than ever
Open your eyes wide

Together let's take a long road

14. JUMP RIGHT OUT

Thought it'd be easy
Thought you might know me by now
But we got caught up in the green water
Down in the deep

We go the long way
Headed to nowhere
Right from the start

How did we get here ?
Wish I could tell you
I thought we had time

You jump right out again
You say you can't pretend
So you didn't need me like
The grass needs the rain
You was hoping that one day maybe things would change

Soon maybe one day we'll find the answers out in the blue
Maybe we'll get there holding another's marvelous dreams

We ride the seasons

All changing colors we never could know

We nearly drowned in fighting for something
You said we'd be fine, I thought we had time

You jump right out again
You say you can't pretend

I thought we had time

You jump right out again

15. SOMETHING OUT OF THE BLUE

I opened my mind
Peace I could not find
Then something out of the blue
Said I needed you

Time swept me away
Merged me into pain
Then something out of the blue
Said you need me too

Oh what joy it brings to me
To know that Heaven's round
Oh what gladness in my heart
To know my love's been found

Chains totaled my climb
I was pushed out of time
Then something out of the blue
Said you'd see me through

Now where hope was lost
Love's paid the cost
And something out of the blue
Said my love is you
Something out of the blue
Said I needed you
