

Pearl Jam kickstart their 20th year with live compilation album

'Live on Ten Legs' out January 14th

Pearl Jam release 'Live on Ten Legs', a classic-packed new live compilation album, January 17th on Island Records.

Kicking off the band's twentieth anniversary year and ensuing celebrations in style, the album features 18 captivating versions of Pearl Jam's landmark tracks. 'Live on Ten Legs' was recorded over the course of the band's 2003-2010 world tours by engineer John Burton.

Newly remixed by longtime Pearl Jam engineer Brett Eliason and remastered, the material on the record spans Pearl Jam's 60 million selling career.

The release follows Pearl Jam's victorious Hyde Park show this summer, which cemented the band's status as one of the best live acts in the world. Included on the album are live versions of classic songs 'Jeremy', 'Alive' and 'Spin The Black Circle' as well as 'Just Breathe' and 'The Fixer' from their most recent album, the acclaimed 'Backspacer'.

'Live on Ten Legs' will be available in CD, digital and deluxe versions. The deluxe box set version will include a CD, double LP package, four mini poster reprints, five live photos and a tour laminate.

Pearl Jam's 'Live on Ten Legs' is a follow up to their 1998 live release, 'Live on Two Legs', which consisted of performances recorded during the band's summer 1998 North American tour. 'Live on Two Legs' was certified platinum in the United States.
